I. Fiscal Year 2003 Expenditures

As expenditures for indigent defense continue to rise throughout the state, the Task Force is committed to assisting counties with these expenses. Of the amount appropriated to the Task Force from the Legislature, 94% is used solely to provide funding (including grants) to qualifying counties. Of the \$130,345,244 expended on indigent defense by counties, state grant funding represents approximately 10% of that amount.

Indigent defense expenditures rose over \$21 million in FY02 compared to FY01 expenditures in Texas. This represents an increase of 23%. The amount paid by counties for attorney fees increased 20% in FY02 compared to FY01. It is not known whether this percentage of statewide increase is directly related to the Fair Defense Act provisions in areas such as higher rates paid to attorneys and more attorney appointments by courts or if it is due to increased crime or other factors.

Indigent defense expenditures rose an additional \$16.4 million in FY03 compared to FY02 expenditures in Texas. This represents an increase of 14% and a total increase over FY01 expenditures of 41%. The amount paid by counties for attorney fees increased by 16% in FY03 compared to FY02. While the costs for defense investigation and expert witnesses increased from FY02 to FY03, the costs for "other litigation expenses" decreased. The total amount paid by counties for litigation fees (defense investigation, expert witness fees and other litigation expenses) decreased by \$867,888 or 7% in FY03 compared to FY02. It is not known, based on the data collected, whether this decrease was due to increased efficiency in the court system, new standards regarding payment of fees, or a more clear understanding of what items constitute other litigation expenses.

In FY03, 203 counties reported increases in direct indigent defense spending (attorney fees, defense investigation, expert witness and other litigation expenses). When Task Force grant funds to counties are considered, only 152 counties reported an increase in indigent defense spending.

As was experienced in FY02, the largest Texas counties (Harris, Tarrant, Dallas, El Paso and Bexar) reported the greatest actual expenditure increase in FY03, although the percentage varied – Harris 57%; Tarrant 82%; Dallas 7%; El Paso 35%; and Bexar 42%. These percentages are based on actual expenditures in excess of the FY01 baseline expenses and the grant funds received from the Task Force.

Counties with the Greatest Actual Expenditure Increase

Many rural counties again experienced large percentage increases but rather small actual expenses. The ten counties with the largest percentage increases amount to \$448,984 or less than 1% of the total statewide increase based on actual expenditures in excess of the FY01 baseline expenses and the grant funds received from the Task Force.

* In FY02, the Task Force was not operational until January and not fully staffed until May 2002, therefore, administrative costs were lower in FY02. FY03 presents an annual expenditure level for administrative costs.

¹Actual grant amounts expended for FY02 total \$7,079,677 based on final reports submitted by counties as of November 1, 2003. The difference of \$218,447 must be refunded by counties receiving funds they were unable to expend during the grant period.

Due to time constraints, the Task Force was unable to expend all revenue received in FY02, therefore, \$1.7 million was carried forward into FY03. In FY03, not all grant awards were expended and \$116,797 will be carried forward into FY04.

III. FY03 Grants

In fiscal year 2003, grant funding was dispersed two ways:

1. Formula Grants
2. Discretionary Grants

Formula grants use a standard allocation “formula” to distribute funds to all counties who apply for funding and document expenditures for indigent defense, as outlined by Task Force rules. Formula grants accounted for 87% of the funds distributed to counties in FY 2003.

Discretionary grants were also awarded this year. This is a competitive grant program. These grants are awarded on a competitive process and are intended to encourage innovative programs to increase the quality of indigent defense services. Twenty grants, totaling \$1.5 million were awarded in FY 2003.

Formula Grants

Formula Grants provide money to counties for increased indigent defense costs based on a formula set by the Task Force. Qualifying counties are eligible for funds determined by the formula only to the extent their spending exceeds spending in their baseline year (FY2001). The current formula provides that all counties may be eligible for a \$5,000 “floor.” The remaining funds set aside by the Task Force for these purposes are then allocated based on the counties’ percent of the State of Texas’ population. Counties must meet minimum spending requirements to receive credit for spending the funds as required in Texas Government Code Section 71.062 (d).

The Task Force awarded \$10.8 million in FY03 to 242 Texas Counties. The largest award was issued to Harris County for \$1,595,202 and the smallest was to Loving County for \$5,027. Twelve counties did not apply for the grant². The main reason for not applying was that these counties did not use the FY02 grant or did not have or did not anticipate having increased indigent defense costs. Counties that did not apply for the grant were eligible to receive direct disbursements if they encountered indigent defense expenses above their baseline. No counties applied for direct disbursement in FY03. A complete list of counties receiving formula grant funds and the value of the award is contained in Appendix D.

Reduced revenues from legislative cuts and reduced court costs collections adversely impacted the FY03 grant management process. In January 2003, the Governor, Lt. Governor, and Speaker requested all state agencies reduce budgets by 7% for the current

² Cochran , Glasscock , Hartley, Hemphill, Hutchinson, Kenedy, King , La Salle, Lavaca, McMullen, Pecos, Zavala

fiscal year. Court cost collections also decreased by approximately \$400,000. These events impacted the formula grant awards after they were issued. The Task Force however was able to overcome these challenges with minimal or no direct impact to the courts and counties.

FY02 Formula Grants	Amount	FY03 Formula Grants	Amount
Formula Grant Funds Awarded	\$7,298,124	Formula Grant Funds Awarded	\$10,800,000
Formula Grant Funds Expended	\$7,079,677	Formula Grant Funds Expended	\$10,410,103

The Task Force on Indigent Defense awarded \$7,298,124 in grant funding to 240 counties for FY 2002. Funding was awarded in the form of a formula grant. Counties qualified for funding if their FY02 annualized expenses were greater than their FY01 baseline expenses. Because grant funding was released to the counties toward the end of the grant period, the Task Force adopted a policy allowing counties an additional year to expend their grants. The policy required counties to expend their FY02 funds prior to receiving funding out of the FY03 grant cycle. At the end of the extended grant period, grant funds expended totaled \$7,079,677. Counties expended 97% of total FY02 grant funding awarded to them.

In FY 2003, the Task Force received \$12,332,203 to disperse to counties in total grant funding. In FY02 the Task Force was operational for only 9 months, and therefore, did not receive the same level of funding as it received for the entire year of FY03. Of the 254 Texas counties, 242 counties applied for Formula Grants totaling \$10,800,000. Of the amount awarded for formula grants, \$10,410,103 was disbursed, as counties had \$406,807 in FY02 funds to expend prior to receiving their entire FY03 grant award. Of the \$10,410,103 dispersed to counties for FY03, initial reports indicate that \$10,011,331

was expended by counties. The Task Force is in the process of contacting counties who did not expend their entire FY03 grant to determine if there were reporting errors or if the county is to refund the unexpended total. Any funds returned to the Task Force will be carried over to the FY04 grant cycle and included in funds dispersed to counties for FY04 expenditures.

Discretionary Grants

The Task Force solicited applications for discretionary grants from all 254 counties.

There were 26 counties that applied for funding for 35 different programs. The programs cover three broad areas: 1) direct client services; 2) technology initiatives; and 3) processes and persons to help counties manage and implement effective indigent defense practices.

The basic review and selection process involved other state agencies assisting the Task Force staff by volunteering staff. The reviewers were from the State Grants Team in the Office of the Governor, Texas Department of Criminal Justice – CJAD, Office of Court Administration, and Texas Juvenile Probation Commission. After the grant administrator certified the application complete and related to indigent defense the reviewers scored each proposal. The scored proposals were taken to the grants and reporting committee for review with recommendations. The committee provided comments for staff consideration and points of negotiation that the staff should discuss with counties. Of the 26 counties that applied, 20 counties were awarded grants representing 21 different programs for a total of \$1.4 million.

The FY03 discretionary grants marked the first statewide development, funding, and implementation of novel indigent defense projects. Many programs started timely, others however, experienced challenges. Only ten of the counties submitted for reimbursement in the first quarter. Eleven counties had their programs fully operational within the first 90 days of the grant—16 by the end of the second quarter. The delays were a result of local coordination issues or infrastructure issues related to technology. Two grants were modified to reduce their scope after the counties requested the modifications. These two counties were not able to implement the grants as originally funded.
